Project Title:

Equity of Emergency Care Capacity and Quality Electronic Clinical Quality Measure (eCQM)

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with Yale New Haven Health Services Corporation – Center for Outcomes Research and Evaluation (CORE) to develop a measure of equity of emergency care capacity and quality. The measure will be an electronic clinical quality measure (eCQM). The contract name is Measure & Instrument Development and Support (MIDS): Development, Reevaluation, and Implementation of Outpatient Outcome/Efficiency Measures, Option Period 3. The contract number is 75FCMC18D0042, Task Order number 75FCMC19F0002. As part of its measure development process, Yale CORE convenes groups of stakeholders and experts who contribute direction and thoughtful input to the measure developer during measure development and maintenance. The purpose of this TEP is to assemble a group with diverse perspectives and expertise to advise on conceptual, technical, and implementation considerations of this measure.
