Project Title: Technical Expert Panel (TEP) for the Refinement of Long-Term Care Hospital (LTCH), Inpatient Rehabilitation Facility (IRF), Skilled Nursing Facility (SNF)/Nursing Facility (NF), and Home Health (HH) Function Measures

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with Acumen, LLC and Abt Associates to develop quality and cost measures for use in the IRF, LTCH, SNF, and HH QRPs and the Nursing Home Quality Initiative (NHQI). The contract Acumen, LLC operates under is the Quality Measure & Assessment Instrument Development & Maintenance & QRP Support for the Long Term Care Hospital, Inpatient Rehabilitation Facility, Skilled Nursing Facility, Quality Reporting Programs, & Nursing Home Compare (75FCMC18D0015/Task Order 75FCMC19F0003). Abt Associates operates under the Home Health and Hospice Quality Reporting Program Quality Measures and Assessment Instruments Development, Modification and Maintenance, & Quality Reporting Program Oversight Support contract (75FCMC18D0014/Task Order 75FCMC19F0001). As part of its measure development process, Acumen, LLC and Abt Associates convene groups of stakeholders and experts who contribute direction and thoughtful input to the measure developer during measure development and maintenance. The goal of this TEP meeting is to ensure that the existing function measures and any newly developed function measures meet CMS program requirements and goals while maintaining high levels of scientific acceptability. During the TEP meeting, the PAC QRP Support team sought guidance on the identification of measure concepts for setting-specific and cross-setting function measures, the development and prioritization of cross-setting function measures for the PAC setting, and the identification of measurement gaps in the function domain.
