

TECHNICAL EXPERT PANEL MEMBERSHIP LIST

Project Title: *Hospital Disparity Index (HDI)*

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with Yale New Haven Health Services Corporation – Center for Outcomes Research and Evaluation (CORE) to develop methodologies for measuring disparities in hospital outcome measures and additional measurement tools to promote equity in healthcare. The contract name is Development, Reevaluation, and Implementation of Outcome/Efficiency Measures for Hospital and Eligible Clinicians, Option Period 3. The contract number is HHSM-75FCMC18D0042, Task Order Number HHSM-75FCMC19F0001. As part of its measure development process, CORE convenes groups of stakeholders and experts who contribute direction and thoughtful input to the measure developer during measure development and maintenance. The purpose of this TEP is to advise CORE on 1) the development of measures and methods for measuring disparity in outcomes for CMS quality measures, including expansion of existing methods to include novel social risk factors and demographic variables, 2) the development of a hospital equity score, which will summarize existing disparity information, 3) the development of a structural measure designed to assess hospitals' commitment to health equity. The aim of the TEP is to receive feedback on proposed methodologies and approaches.
